86 Missed Calls

MAN WITH A MISSION

I sweep these floors clean the mess like a fighter
Try to keep away from what you wanted from me
I keep climbing higher like my feet are on fire
And all your little words are like gasoline
Every step I take the road just breaks apart behind
Miss another train and I wave to the riders
I won't let you threaten me out of my dream

We were too drunk punching holes through the ceiling
Living hard cause dying's too easy
Followed by your ghost

86 missed calls from home
86 missed calls from home

I've got my vision and I'm on a mission
The only way I'm ever giving up
Is when the world stops spinning Believe me
People deny me I don't know why it doesn't matter
I won't let you threaten me out of my dream

We were too drunk punching holes through the ceiling
Living hard cause dying's too easy
Followed by your ghost

86 missed calls from home
86 missed calls from home
86 missed calls from home

And I checked my phone 86 missed calls from home
And I checked my phone 86 missed calls from home

We were too drunk punching holes through the ceiling
Living hard cause dying's too easy
Followed by your ghost

86 missed calls from home
86 missed calls from home
86 missed calls from home
