MAN WITH A MISSION

Here now I observe
Standing on this fragile glass world

The long fall the dream when I dive
And wake up once again, I feel alive
Come on the day is today
Here we go we are getting ready

Look around the world moving fast
I feel so alone and can't find the right path
Come on the end of this game
Yeah we know the key to get it ready

Yousha naki seizon kyousou
Sou sa kachitori okosu evolution

Come on the day is today
Here we go we are getting ready

Yeah, I'll be a survivor
I'll be a survivor
Breaking out my shell

Yeah, I'll be a survivor
We'll be the survivor
Breaking our farewell

Here now I reload
Waiting on this broken plateau

Bokutachi wa kanarazu sou darou
Doko ka kitto tsunagatteru

Come on the day is today
Here we go
We are getting ready

I could be anything anything I can choose
Do not fear the change there's nothing, nothing to lose
Come on the critical way
Yeah we know the key to get it ready

Tachiagatte ken o agete
Find my brand new day

Yeah, I'll be a survivor
I'll be a survivor
Breaking out my shell

Yeah, I'll be a survivor
We'll be the survivor
Breaking our farewell

Boku wa dare no tame de mo naku
Kono mi o kogashi going on

Here now I observe

Standing on this fragile glass world

Breakout our farewell today
Sou daichi o kette sa kitto tsukami toreru

Yeah, I'll be a survivor
I'll be a survivor
Breaking out my shell

Yeah, I'll be a survivor
We'll be the survivor
Breaking our farewell
