

# Adrenaline

Manafest

I'm going off of adrenaline  
Coming back like a second wind  
Got that adrenaline  
In my veins in my heart  
I'm going off of adrenaline

I'm in the twilight zone  
I'm in designer clothes  
The doctor diagnosed  
I make the mics explode  
The way I fight my foes  
I leave'm white as ghosts  
I'm like tae kwon doe  
Riding lighting bolts  
I might flip my flow  
For photos  
Strike a pose  
Always striking gold  
They can't survive my cold  
We really broke that mold  
They look like I don't know  
They're airplane mode  
I'm always ready to go

I'm going off of adrenaline, adrenaline  
That's the new medicine  
Coming back like a second wind  
No surrendering  
Got that adrenaline  
In my veins in my heart  
(Rush of adrenaline)  
Feel the flame light it up  
(Rush of adrenaline)  
I'm going off of adrenaline, adrenaline  
That's the new medicine

I don't think you know do you  
No voodoo only truth  
Watch'm cry boo hoo  
Time to introduce  
Watch me move  
With the good news  
Coming through  
Like new shoes  
Once in a blue moon  
In full pursuit  
I let loose

It's heating up  
Feel the rush  
It's heating up  
Feel the rush  
I can never get enough

I'm going off of adrenaline, adrenaline  
That's the new medicine  
Coming back like a second wind

No surrendering  
Got that adrenaline  
In my veins in my heart  
(Rush of adrenaline)  
Feel the flame light it up  
(Rush of adrenaline)  
I'm going off of adrenaline, adrenaline  
That's the new medicine

I don't think you know do you  
No voodoo only truth  
Watch'm cry boo hoo  
I don't think you know do you  
Watch me move  
With the good news  
Coming through  
Like new shoes  
Once in a blue moon  
In full pursuit  
I let loose  
I let loose
