

Demons

Manafest

I used to be the weak kid
Meek kid
Staying home alone on the weekend
Never thinkin I was worthy
Worried they would Hurt me

I started hearing voices
Noises
All up in my head kinda poison
Telling me that I was broken
And my life was hopeless
So I told myself I'm

I'm never gonna give up
No matter how long it takes
I'm steady like a river
Nah nothing gonna make me break

I can overcome my demons
I could push em down below
And when I'm starting to believe em
They hit the ground like dominoes
Yeah every time they tell those lies
I remind myself
That I can overcome my demons demons
And down down down they go
Down down down they go

Better believe I tried therapy
Clarity
Heart on my sleeve voluntarily
Put it all on the table
Still unstable

They say 1 pill a day
Keeps the devil away
But try to telling that
To my messed up brain
I'd rather count on me
Than dose em out 1 2 3

I can overcome my demons
I could push em down below
And when I'm starting to believe em
They hit the ground like dominoes
Yeah every time they tell those lies
I remind myself
That I can overcome my demons demons
And down down down they go
Down down down they go

I'm fighting off my demons demons
Said goodbye to all my demons yeah

Chokin on a lie
Blow smoke Into my eye
I woke, and Came alive

My soul
It never died

Re-wrote into my diary
Dark side expiring
Spirit re-wiring
Sunset reminded me
Keep climbing the wall
We fight and we fall
Defying the odds
Cast 'em out of my thoughts

I know where the liars go
Where the fire glows
Underground way way
Down down below
Battle mode

Got the antidote
Turned animal
Was comatose
Got the angels singing
I don't stand alone
Got demons screaming
Yo he can't be over thrown
Not a pushover
This is kid is going rogue

I can overcome my demons
I could push em down below
And when I'm starting to believe em
They hit the ground like dominoes
Yeah every time they tell those lies
I remind myself
That I can overcome my demons demons
And down down down they go
Down down down they go

I'm fighting off my demons demons
Said goodbye to all my demons
And Down down down they go
