

Doomsday

Manafest

Never knew love
Till I knew pain
Knew hate, new rage
New day, doomed
If I'm too late
Over do with the truth
Get a new name
In a mood I'ma move like I'm wu-tang
Fools hang
My gang on a record
Sang my slang in a band mic check it
Faith still stands, till I make my exit
Am who I am for him I said it

Is it too late for me?
Please save a place for me
Fly me on angels wings oh oh
Is it too late for me?
Please save a place for me
Live for eternity oh oh

Doomsday
Don't wait
It's yours
Go to war
Bring the ruckus for a change
Doomsday
Time fades
It's yours
Go to war
Bring the ruckus for a change

For a change

Fire filled eyes
Let my faith fly
Faith rise hands high
Paid my sin
So I can't die
Not a saint but he paid for the same crime
Made a way
Won't ya come ride?
Thin line our time is ended
No deal soul sealed no no edits
This could be our last goodbye so epic
This could be our last goodbye

Is it too late for me?
Please save a place for me
Fly me on angels wings oh oh
Is it too late for me?
Please save a place for me
Live for eternity oh oh

Doomsday
Don't wait
It's yours

Go to war
Bring the ruckus for a change
Doomsday
Time fades
It's yours
Go to war
Bring the ruckus for a change

Counting down the days
Thousands left to save
Nothing left to say come home
Can you hear me
Can you see me
Reaching out my hand to you
Dis me, kick me
Hate me singing hallelujah
I'm not walking away
I gotta tell it to ya
Don't push me away, away, away

Is it too late for me
Please save a place for me

Doomsday
Don't wait
It's yours
Go to war
Bring the ruckus for a change
Doomsday
Time fades
It's yours
Go to war
It's yours
Go to war

Bring the ruckus for a change (For a change)
Bring the ruckus for a change (For a change)
