

Forever

Manifest

The trouble with loving you is
I'm only human
The trouble with loving you is
I'm scared of losing
The trouble with loving you is
My heart gets bruises, it seduces
That's the trouble with love
That's the trouble with love

You said forever you
Would be there when I need you
Now you don't feel the same
You said forever you
Would love me like a tattoo
Then you had me removed
You said it's over and I hate the feeling
Hate the feeling
You said forever you
Would be there when I need you
Now you don't feel the same

Ask myself how I'm under your spell
Our kingdom fell and you said farewell
Been through hell, kept paying my bail
If I can't have you, there's no one else
Locked up and I'm down and were left and were right
Just wish you would hold me tonight
Chasing rainbows till the pain goes
Put my halo on and I won't let go

You said forever you
Would be there when I need you
Now you don't feel the same
You said forever you
Would love me like a tattoo
Then you had me removed
You said it's over and I hate the feeling
Hate the feeling
You said forever you
Would be there when I need you
Now you don't feel the same

I'm no good without ya
Only God can help us
You make me better
My heart surrenders
We fought together
You said forever ever
My mistakes
Masquerades
Not afraid
You make me better
You said forever

You said forever you
Would be there when I need you
Now you don't feel the same

You said forever you
Would love me like a tattoo
Then you had me removed
You said it's over and I hate the feeling
Hate the feeling
You said forever you
Would be there when I need you
Now you don't feel the same

Oh, oh
Now you don't feel the same
