

# Gravity Falls

Manafest

Been a long wild ride I made it  
In my lifetime finally I taste it  
Sacrificed every dime I traded  
Yeah, yeah  
Come and take it

Don't know what the price I paid is  
Don't know what the hell I'm facing  
Can't run in the shoes I race in  
Can't live all the years I wasted  
I wasted

Gravity falls, it takes the legs from me  
Now I'm on my knees, got ahold on me  
I'd give it all, to keep the air I breathe  
What I believe, will rescue me

Cause when gravity falls  
You can't hear it at all  
When gravity falls  
I feel it underneath, it's pullin' me, it's pullin' me

Keep looking at the life I painted  
Won't sleep in the caves I stayed in  
Wanna ride in a seat with greatness  
Yeah, yeah  
Go and take it

Walk a mile drop a tear get hated  
Stay awhile let's see if ye make it  
Been a sinner been a whole lotta changes  
Yeah, yeah

Gravity falls, it takes the legs from me  
Now I'm on my knees, got ahold on me  
I'd give it all, to keep the air I breathe  
What I believe, will rescue me  
Cause when gravity falls  
You can't hear it at all

When gravity falls  
I feel it underneath, it's pullin' me, it's pullin' me  
Pullin' me, it's pullin' me  
Pullin' me, it's pullin' me  
Pullin' me, it's pullin' me

Gravity falls  
It takes the legs from me  
Now I'm on my knees, got ahold on me  
I'd give it all, to keep the air I breathe  
What I believe, will rescue me

Gravity

It takes the legs from me  
Now I'm on my knees, got ahold on me  
I'd give it all, to keep the air I breathe

What I believe, will rescue me  
Cause when gravity falls  
You can't hear it at all

Gravity Falls  
Cause when gravity falls  
You can't hear it at all

I feel it underneath it's pulin' me it's pullin' me  
I feel it underneath, it's pullin' me, it's pullin' me
