

I Run With Wolves

Manafest

I'm not takin' it anymore
I'm lit up and ready for war

Can't hide from it, black skies comin'
Like a tide floodin', better keep runnin'
Hear feet rushin', can't see nothin'
Like bein' hunted, I'm cold-blooded

I run with wolves, you play to lose
I make your moves (I make your moves)
I run with wolves like ragin' bulls
I'm chasin' you, come and get me

I'm not takin' it anymore
I'm lit up and ready for war
I'm wide awake now, ready for the takedown
And nothing's gonna get in my way now
Now's the time we settle the score
I run with wolves
I run with wolves

Outwitting you, knock knock, beginning you
Hitting you, splitting you, ah, ah, you lit the fuse
What you gonna do? Can't stop, don't have a clue
Think you're fireproof? Think not, you're born to lose

I run with wolves, you play to lose
I make your moves (I make your moves)
I run with wolves like ragin' bulls
I'm chasin' you, come and get me

I'm not takin' it anymore
I'm lit up and ready for war
I'm wide awake now, ready for the takedown
And nothing's gonna get in my way now
Now's the time we settle the score
I run with wolves

No way out, I'll chase you down
Can't hide from me, don't look now
In the wild, I wear the crown
'Cause I was born to, I was born to
Run (Run)
Run (Run)

I run with wolves, you play to lose
I make your moves (I make your moves)
I run with wolves like ragin' bulls
I'm chasin' you, come and get me

I'm not takin' it anymore
I'm lit up and ready for war
I'm wide awake now, ready for the takedown
And nothing's gonna get in my way now
Now's the time we settle the score
I run with wolves
