

# Kamikaze

## Manafest

May day, s.o.s  
May day, s.o.s

Ooh, you're so good at the lie  
Believing every line  
Blinded by your light  
You be inside of my head  
Keep evicting my pride  
Watch you stick in your knife  
Couldn't see the signs  
You'd push me off my ledge

If you want it  
Come get it  
I'm a rough you up  
Call medic  
I'm a shut you up  
That's an edit  
Boil my blood and regret it  
I've been on my knees enough  
I'm begging, baby please for what  
My stomach only takes so much  
I've ate the keys to my own cuffs

Come and criticize me  
I'm a kamikaze  
Lies don't surprise  
You can all victimize me  
Come and criticize me  
I'm a kamikaze  
Lies don't surprise  
You know where to find me

I am a kamikaze  
Don't strap yourself to me  
I love the way you suck my energy, energy  
Might be a kamikaze  
Don't strap your lies to me  
I love the way you suck my energy, energy

May day, s.o.s, fall in love with my regrets

Ooh your so good at a fight  
Stepping on my mic  
Sucker for your eyes  
You think I'm better off dead  
Push my feelings aside  
Your the queen of the crime  
Bleed me alive  
Kicking you out of my bed

I bought it  
Cause you said it  
I forgive you now  
Let's forget it  
Poisons out  
Cause I let it

I'm a calm calm down in a minute

Paid my debt  
I'm seeing red  
A piece of flesh  
I won't forget  
I broke my neck  
For no respect  
My soul is set  
I lay to rest

Come and criticize me  
I'm a kamikaze  
Lies don't surprise  
You can all victimize me  
Come and criticize me  
I'm a kamikaze  
Lies don't surprise  
You know where to find me

I am a kamikaze  
Don't strap yourself to me  
I love the way you suck my energy, energy  
Might be a kamikaze  
Don't strap your lies to me  
I love the way you suck my energy, energy  
...
