

Learning How To Be Human

Manafest

Yeah, I need therapy
I got too much energy
Talk, don't just stare at me
Praying for my enemies
Fall, into destiny
Living out a legacy
Trying to be a better me

I've got feelings
From dusk ti'll dawn
There's a battle going on
I've got secrets
I've been wrong, and right
It's a war for my life
Lead me on the way home
Look how far I've come
I'm out of the ruins
Lost in the music
Shattered and wounded
Tired of losing
Lead me on the way home
Look how far I've come
Running out of my excuses
Pains no illusion
Covered in bruises
Learning how to be human
Learning how to be human

Caught in your jealousy
You don't want the best for me
Nah, you pretend to be
I been watching carefully
You, taint my memories
I got new identity
Up the ladder steadily

I've got feelings
From dusk ti'll dawn
There's a battle going on
I've got secrets
I've been wrong, and right
It's a war for my life
Lead me on the way home
Look how far I've come
I'm out of the ruins
Lost in the music
Shattered and wounded
Tired of losing
Lead me on the way home
Look how far I've come
Running out of my excuses
Pains no illusion
Covered in bruises
Learning how to be human
Learning how to be human
How to be human
