

# Let Go

## Manifest

Oh, oh,  
Oh, oh,

My faith tells me if I jump I'll fly  
Then why am I frozen with the thought I'll die  
Gravity's not fantasy, realities in front of me  
Will I be the one who falls or soars in the sky  
A death in the family can change your perspective  
If love is a currency where'd I invest it?  
I want to be the mirror that has you reflected  
I want to leave a legacy I have no regrets with  
God told me don't look back  
If you want to move on got to forgive'm of that  
I try to set sail on a path to forgiveness  
Still floating off and my sails are windless

The world won't bring me down  
If I just keep harking on  
And if I just say your name you  
Will cover me with your love  
If I want to follow you I know  
I've got to learn to let it go

Even when I fall I'm still a saint in your eyes  
Even when I crawl I know I'm still held high  
I try to fast from bad thoughts  
And baptize my back talk  
Circling the same lie  
I know it's gonna take time  
God told me don't look back  
If you want to move on got to forgive'm of that  
I try to set sail on a path to forgiveness  
Try to float off but my sails are windless

The world won't bring me down  
If I just keep harking on  
And if I just say your name you  
Will cover me with your love  
If I want to follow you I know  
I've got to learn to let it go

I've got to learn to let it go  
I've got to learn to let it go  
Cause your faithful  
Never let me down  
Like an angel  
When you turn me around  
See a rainbow  
Not a doubt a round  
So graceful  
It's time to let it go  
Cause your faithful  
Never let me down  
Like an angel  
When you turn me around  
See a rainbow  
Not a doubt a round

So graceful  
It's time to let it go

The world won't bring me down  
If I just keep harking on  
And if I just say your name you  
Will cover me with your love  
If I want to follow you I know  
I've got to learn to let it go
