

# Let You Drive

Manafest

Red light, red light, green light go  
Late night, late night, I just go

Burn out turn down the lights low  
On the 5 coming down on my own

It's not too late, to get help  
Don't lie, I know you can tell

I'm crazy, crazy tonight  
I need a spark of your light

I want it, want it so bad  
Everything, all the things I don't have

All the times, every time I got mad  
Should a listened listen I'm back

Wishing I was where you are  
Wishing at night on a star

This road, this road is so far  
Come come this car is in park

Take my hands off the wheel  
And let you drive  
Let you drive  
Let you drive

Here's the key to my heart  
So come inside  
Take my life  
You can take my life

Take me where I need to go  
Only thing I need to know  
I am not alone

Take my hands off the wheel  
And let you drive  
Let you drive  
Let you drive

I'm right, I'm right but I'm wrong  
Who's side my side you've been on?

It's hard so hard to admit  
The pain the shame that I'm in

My god my god I cry out  
Here I surrender my doubt

You are the light of my life  
The only way I survive

Never doubted doubted your plans  
I come with stains on my hands

I lift them up to let go  
Cause I've been driving alone

I burn and turn off this road  
I've learned I'm lost on my own

I prayed my faith is intact  
I blow my horn cause I I'm back

Take my hands off the wheel  
And let you drive  
Let you drive  
Let you drive

Here's the key to my heart  
So come inside  
Take my life  
You can take my life

Take me where I need to go  
Only thing I need to know  
I am not alone

Take my hands off the wheel  
And let you drive  
Let you drive  
Let you drive

I stop you go  
I won't look back  
I start to think  
I found my path  
You move me  
You move me  
I'm off your on  
I'm free at last  
I take my seat  
My bags are packed  
You move me  
You move me

Take my hands off the wheel  
And let you drive  
Let you drive  
Let you drive

Take my hands off the wheel  
And let you drive  
Let you drive  
Let you drive

Here's the key to my heart  
So come inside  
Take my life  
You can take my life

Take me where I need to go  
Only thing I need to know  
I am not alone

Take my hands off the wheel  
And let you drive

Let you drive  
Let you drive
