

Mind Master

Manafest

My mind walks a little path
You don't know the half
God's upstrings Chris the locks and crafts
Given the past sling to my eyes
Whose tribulation who fixes that makes me wise
No lies, remember my days in dirty disguise
Eyes off the prize, 360 my flesh dies
Of my mentor, always true to the devil rental,
With the god of pezzles, I drop the truth to the instrumental
My death row was regarding the god's god, the devil was trying to ren
t because I was off-pilot
I won't lie because my brain cell, pain cell, tranquil with the off s
ling help

Who's the master of your mind
Dark god makes your eyes blind in the sun, you need to see the sign

Who's the master of your mind
Dark god makes your eyes blind in the sun, you need to see the sign

Who's the master of your mind
Dark god makes your eyes blind in the sun, you need to see the sign
Can you find, two lovers who love like the crown on the street
You lost like a lab at the beast
Confused at the council of your peap
You should know the mighty group that speaks and makes peace
Who the blind and the blind will fall, until they need your call

So control your thoughts
Your mind trapped in the locks and the pain
and the guards on clocks time to yourself and blocked you need a doc
I help a kid from getting molested on the rocks and my socks rocks de
vils locks
My god's got a lot from a foundations, not stipulations

Dark god my heart lead my mind cast away
All those thoughts so I could shine you'll be mine
I'll want to see you rewinded, defined, you'll see the sign
It's time to rewind the fire's line, I'll be fine leaving this world
behind
Be a coward, love's that is blind, be a captain curl to the swine
Be a master of my mind, let you hear the mind
If you die of my slign, now I see clear with fear
You are a mere to a mere man, help me understand you away
Now take any day, you can be my partner, I'll be your bait
Let me be your day, this is what I pray, this is what I pray, God
