

No Turning Back

Manafest

Had to fall to feel the climb
Had to lose to lift my pride
Had to crawl across the line
Had to pass to leave behind

Closing doors on the dead ends
Open roads, and my soul mends
Walking paths with a new lens
Draw me out of the darkness

Burn the bridges
Walk away
Ride the storm
Go out in flames
No turning back
No turning back

Burn the bridges
Unafraid
Ashes fall
The earth will quake
No turning back
No turning back

Coming and coming
The pressure erupts
Running and running
Adrenaline rush
Who I'm becoming
The battle is stunning
The future is numbing
It's coming undone

Turning the page
Enduring the pain
Foot on the gas
Past is erased
Still no afraid
Forged in the flame
Whatever it takes

Burn the bridges
Walk away
Ride the storm
Go out in flames
No turning back
No turning back

Burn the bridges
Unafraid
Ashes fall
The earth will quake
No turning back
No turning back

I'm on a mission
No turning back

Old me's dead and gone
Now, the sky is clear
Know where I went wrong
Whom shall I fear

Spark it
Light it
Burn it down

Burn the bridges
Walk away
Ride the storm
Go out in flames
No turning back
No turning back

Burn the bridges
No turning back

I'm on a mission
No turning back
No turning back
No turning back
No turning back
