

Notorious

Manifest

Yeah, we shift in the shadows
Armed with the ammo
Midnight marauder
Ignite the drama
Rewrite the saga
Looking for trouble you found it
Breaking the silence now crown it
Lost in the dark you're surrounded it
The wolves are a howling
Our stomachs are growling
Watch where ye wander
Like sands of Nevada
A covert armada
We do what we wanna
The devils in prada
Fearing our legend
We fight with a vengeance
Silence a weapon, relentless
Till we make an entrance

We are notorious
The outcasts
The bad batch
We'll be, victorious
Keep ye legends, league of villains
We're notorious
We're notorious

I feed off the danger
I been a stranger
Call me the Vader
Swinging the saber
Sharp as a razor
Call you a savior
I'll see you later
The new gladiator
Species endangered
Spirits untamed
Fearless in flames
Peace maker
Ye times up
Times up

We are notorious
The outcasts
The bad batch
We'll be, victorious
Keep ye legends, league of villains
We're notorious

Oh, oh, oh, oh, oh, oh, oh
We're notorious

We're back
We're bad
Not going anywhere (not going anywhere)
We're back

We're bad
Not going anywhere (not going anywhere)

We are notorious
The outcasts
The bad batch
We'll be, victorious
Keep ye legends, league of villains
We're notorious

Oh, oh, oh, oh, oh, oh, oh
We're notorious

Oh, oh, oh, oh, oh, oh, oh
We're notorious

We're notorious
