

# Overboard

Manafest

I hear you calling out  
Our ship is going down  
We're sinking and I can't let you go  
I couldn't understand  
You wouldn't take my hand  
I watched you fall into the ocean below  
It's a fight to survive  
Do or die and to keep it alive

We gotta wake up, we gotta save us  
So baby hang on  
I'm coming after you, I'm diving overboard  
Any moment we could lose it  
I'm coming after you, I'm diving overboard  
S.O.S  
I'm diving overboard off the edge  
I'm diving overboard  
I'm diving overboard  
I'm diving overboard

It's all or nothing now  
It's time we figure out  
Or we'll be going back and forth to the end  
Cause everytime we touch  
We fall right back in love  
Just to break apart like waves in the wind  
Out of breath, ship is wrecked  
In distress, but we'll fight for what's left

We gotta wake up, we gotta save us  
So baby hang on  
I'm coming after you, I'm diving overboard  
Any moment we could lose it  
I'm coming after you, I'm diving overboard  
S.O.S  
I'm diving overboard off the edge  
I'm diving overboard  
I'm diving overboard  
I'm diving overboard

I'm rushing out  
Coming now  
Take my hand  
I'm reaching down  
Don't let go  
I'll get you home  
Lay you in a safety zone  
Hold you in my arm's embrace  
Never let it go astray  
Storms will fade, sun will rise  
Baby we gone, be alright  
Breathe in, breathe out  
There's still a heartbeat pounding  
Don't give up, open your eyes

We gotta wake up, we gotta save us  
So baby hang on

I'm coming after you, I'm diving overboard  
Any moment we could lose it  
I'm coming after you, I'm diving overboard  
S.O.S  
I'm diving overboard off the edge  
I'm diving overboard  
I'm diving overboard  
I'm diving overboard
