

# Paradise

## Manifest

Met you by the coburg cove  
The water had an ocean glow  
Our foot steps walked a sandy line  
The drummer had our tongues all tied  
God only knows where we would go  
It's coast to coast a crazy road  
So far from home  
I know,  
But I would never look back now  
Too many dreams come true  
Praying when it's so hard  
Do what I got a do  
Saying that I don't know  
Sometimes so scared  
Thank god I still got you  
Oh!!!

R: Our love is paradise  
Our love's electrifying  
It keeps us strong  
When we both walk through the fire  
For you I'd give my life  
I'd walk a million miles  
Cause you're the one  
You are my paradise

You're the one you're my paradise  
You're the one my paradise  
You're the one you're my paradise  
You're the one my paradise

Mountains move when worry dies  
The songs we sung have come alive  
The gold coast screaming at the shows  
Were letting go of all we know  
So many no's the path we chose  
And felt alone can't buy you clothes  
Can't hide my hope I know  
But I would never look back now  
Too many dreams come true  
Praying when it's so hard  
Do what I got a do  
Saying that I don't know  
Sometimes I'm so scared  
Thank god I still got you  
Oh!!!

R:

It's us this time hun  
Will never come undone  
Live by this ocean  
Sunsets and emotions  
It's love this time stunned  
Waking up in your arms I'm  
Never letting the storms in  
Staying close to you girl let's go
