

Perfect World

Manifest

I wanna see the day that we all stand
See a generation under one flag
I wanna see love, don't wanna see hell
I wanna kiss you on the stairwell
Revolution now, revolution come
True peace will never start with a gun
Dream so loud all the people run
With hands held high unity at one

In a perfect world we'd all get along
No one, no fight, nothin' in between us
In a perfect world, we sing the same song
One voice, we'd shout it out
Let our fists unite
Let a new day rise
We will give our lives
For the perfect world

I'm not givin' up, never is it good enough
That day I'll carry you on my shoulders
If not the life, what are we livin' for?
Dancin' to the tune of another war
Sweet Jesus, it's not over
Stand and fight, come on, soldiers
In a perfect world, we'll never be apart
Catch me, wish it on a shootin' star

In a perfect world we'd all get along
No one, no fight, nothin' in between us
In a perfect world, we'd sing the same song
One voice, we shout it out
Let our fists unite
Let a new day rise
We will give our lives
For the perfect world

Oh, oh, it's not over
No, no, we'll get closer
Oh, oh, walls are breakin' down
Set us on fire
Stand tall united
Oh, oh, God help us now

In a perfect world we'd all get along
No one, no fight, nothin' in between us
In a perfect world, we sing the same song
One voice, we'd shout it out
Let our fists unite
Let a new day rise
We will give our lives
For the perfect world

(Revolution now, revolution come) Oh
(Revolution now, revolution come) For the perfect world
(Revolution now, revolution come)
(Revolution now, revolution come)
