

Yo, yo, I had dreams  
My life is skatin' and magazines  
A Nazarene called the gift for flippin' all the pastor scene  
I'm past the scene for T-Dot, marijuana  
Drop my , infect your sect with a Benihana  
Find your mottos, skate and healin' ash bottles  
Goggles on, wax on like Jurassic fossils  
Repertoire, Christ freedom, bless the call  
Expect to fall, nah, stimulate your mind's reservoir  
Memoirs are shady, safety in the Book  
Psalms chapter 80, let's be steppin', lock it down, no more rac  
ies  
Place to skate at, Ash Fall Habitat  
I swing the battle axe, still it's in your cataract

If I die, I know what's on the other side  
This world turn, souls burn, it's unknown to the naked eye  
'Cause if I die, I know what's on the other side  
This world turns (This world turns)

In the streets of T-Dot, police stop on my  
The fear now, listen in like an eavesdrop  
Slang talk conversation, ill communication  
Not the physical, mass incarceration  
What be the illest? Your tongue sick, I'll kill it  
Got the prophecy to fulfill it  
Got the Book of Life 'cause I live it, my spirit, mind's set

The world artificial, rips, scabs, and scar tissue  
God's epistles, could you flex? It's official  
Every single hostage with street knowledge?  
I seen your optics, life run dry like a faucet  
It got to me, spent my days like a renegade  
I engaged in the play game, shot and mayday  
God bless the actions, thorough thrashings  
Gain technique on the streets, broadcast it live  
God's side, you lookin' cockeyed  
What's your mind, kid? Nowhere far from the dark side  
Far, far from the dark side  
(Far from the dark side)

If I die, I know what's on the other side  
This world turn, souls burn, it's unknown to the naked eye  
'Cause if I die, I know what's on the other side  
This world turns (This world turns)
