

# Superman

Manafest

I wanna superman, I wanna superman  
All I ever want is to impress you  
Someone I could lookup standing next to  
Waited on the world it only withdrew  
Wishing for a superhero's rescue  
Never knew a father till I met you  
Every clue I find revealing what's true  
Did he die in vein tell me is that true?  
Asking for a friend looking for breakthrough

I want a superman  
To save me once again  
Tears they fall  
In a savior's arms  
With an aching heart  
I want a superman

To save me once again  
Tears they fall  
Hear the angels call  
With an aching heart  
I want a superman  
I want a superman

Carry me to freedom where the stars shine  
Clinging to a hope beyond a sunrise  
Steadfast living through some hard times  
Parachute to me like a skydive  
Love guide us into the next life  
Hold on even when the waves rise  
Catch me in the fall, feeling alive  
Soaring through the sky higher each time

I want a superman  
To save me once again  
Tears they fall  
In a savior's arms  
With an aching heart  
I want a superman

To save me once again  
Tears they fall  
Hear the angels call  
With an aching heart  
I want a superman  
I want a superman  
I want a superman  
I want a superman

To save me once again  
Tears they fall  
In a savior's arms  
With an aching heart  
I want a superman  
I want a superman  
I want a superman  
I want a superman

Carry me to freedom where the stars shine  
I want a superman  
Clinging to a hope beyond a sunrise  
I want a superman  
Love guide us into the next life  
I want a superman  
I want a superman  
I want a superman
