

Way Back

Manchester Orchestra

I don't miss you
The way that I did
Rearrange me
Buried again

Now I can't find you
Oh, where have you been?
The opened closet
The terror begins

Way back
Way back
Way back
Way back

How'd I miss it
And where did it go?
Searching cobwebs
Finally, alone

Now I see it
There is nothing to hold
Let me fix it
Move, move

Wave back
Wave back
Wave back
Wave back

(Way Back)

When it began, I was starvin', wide eyed and alone, afloat
I wanted to turn off my time and ignore what was done, the gun
The only demand I could muster was begging you no, so know
I'm moving to mute all my memories I made in that moat

I know I won't stop breathing

So young to fall
So learn to fall
So learn to fall
