

This Time Last Year

Mandalay

When when I met you
Evidently
You knew
And then if your kiss
I was full
Evidently
Since without you
Unfolding
This time last year, you were here
This time last year, you were here
This time last year, you were here
Said I miss you
I cannot choose
Tell me you should often do something
Without you here I'm into
Cut out in two
Since without you
Unfolding
This time last year, you were here
This time last year, you were here
This time last year, you were here
In all my innocence
I'm running 'round
In circles you won't allow
Against your bittersweet indifference
I'm running 'round
This time last year, you were here
This time last year, you were here
This time last year, you were here
