

# Somebody's Angel

Mandisa

They say this is the best time of the year  
And for most of us that's probably how it feels  
But what about the ones left alone  
And all the people hurting,  
Looking for a glimpse of hope

We could be that shining light  
To show the heart of Christmas time  
People need love  
And we all are able  
So take some time and start today  
To give some joy and hope away  
'Cause you might be  
You might be  
Somebody's angel

We run and run  
We fill our schedules up  
The gifts, the rush  
Consume us all so much  
Salvation army Santa's ringing his bell  
Giving us a little reminder  
There's a world that needs our help

We could be that shining light  
To show the heart of Christmas time  
People need love  
And we all are able  
So take some time and start today  
To give some joy and hope away  
'Cause you might be  
You might be  
Somebody's angel

This Christmas  
Don't miss it  
The chance to love someone right where they are  
Don't miss it  
Don't miss it

We could be that shining light  
To show the heart of Christmas time  
People need love  
And we all are able  
So take some time and start today  
To give some joy and hope away  
'Cause you might be  
You might be  
Somebody's angel

'Cause you might be, somebody's  
Christmas angel  
Somebody's Christmas angel
