

## Get Free

Mando Diao

Saw you on the street last night  
Told me you were down and out  
A sense of being insecure  
Haunted you forevermore  
For too long long long  
For too long long long

Sister won't you run to me  
To the place I know you wanna be  
We can get free we can get free  
Sister won't run to me

I am knocking on that door  
Memories from long ago  
You need to come and save my soul  
Cause trouble followed me too long  
For too long long long  
For too long long long  
My baby I've been for you too long

Sister won't you run to me  
To the place I know you wanna be  
We can get free we can get free  
Sister won't run to me  
Sister won't you run to me  
To the place I know you wanna be  
We can get free we can get free  
Sister won't run to me
