

Gold

Mando Diao

Twilight in my Eye, then I can see for seven million miles
Twilight in my eye tonight
Dreams become clear, the fog gets thicker every time I inhale
Stars look the same to me

Oh my God I went Gold when I saw your smiling face
I went Gold when I went through this troubling maze
I went Gold and my people behind me all did the same
Oh my God I went Gold when the ocean swallowed me
I went Gold and I felt that I was free
I went Gold and my people behind me all did the same

It's a way to the heaven, don't try to feel too much
Just let the morning dry your eye
Just say, lalalalalalalalalalalalaalalalalalalalala....

Let it all in, don't feel afraid of dying just give in
Let it all in tonight

Oh my God I went Gold when I saw your smiling face
I went Gold when I went through this troubling maze
I went Gold and my people behind me all did the same
Oh my God I went Gold when the ocean swallowed me
I went Gold and I felt that I was free
I went Gold and my people behind me all did the same

It's a way to the heaven, don't try to feel too much
Just let the morning dry your eye
And I say,

Lala

Oh my God I went Gold when I saw your smiling face
I went Gold when I went through this troubling maze
I went Gold and my people behind me all did the same
Oh my God I went Gold when the ocean swallowed me
I went Gold and I felt that I was free
I went Gold and my people behind me all did the same
