

Primal Call

Mando Diao

Hear my soul
A primal call
Can you read my thoughts
Make me understand
When I am by myself
The shadows growing dark
I am not alone
On this dead end road

Everybody told me you're a lonely boy but I got myself
Everybody says you need to stop
They try to hold me back but I go go go go go

Don't leave my hanging
Just let me go
I'm not depending
On you no more
Don't ask me why
I got no answer
Please hear my soul
A primal call

Everybody told me you're a lonely boy but I got myself
Everybody says you need to stop
They try to hold me back but I go go go

Everybody told me you're a lonely boy but I got myself
Everybody says you need to stop
They try to hold me back but I go go go go go
