# Without Love

**Mando Diao**

Remember all those fights we had
Maybe they meant nothing to you
Or were you looking for some action
Those things I never understood

How many times did you lie to me
How many times did you say
It's gonna get better that's for sure my love I promise
Babe I'll be all right now any day

But it was without love
No no no without love
Without love
No no no without love

When you told me babe it's over now
I simply did not know what to do
For you it was an easy thing
But I just stood there like a fool

Soon you started calling in the evenings
Your voice was spilling over with regrets
You said you wanted us to be together
That all sad memories we should forget

But you said it without love
No no no without love
Without love
No no no without love

Without love
No no no without love
Without love
No no no without love

You said it without love
No no no without love
Oh, without love
No no no without love

You said it without love
No no no without love
Without love
No no no without love

Without love
No no no without love
mmmm
No no no without love
