

# Like You Used To

Mandolin Orange

Is there a reason in the things we say and shout at one another  
We're three sheets to the wind and every word just pulls us under

All the dirt we've piled upon our layers of decay  
Just love me darlin', I think I can stay

Love me like you used to do way back when  
'Fore the rug was pulled beneath your feet  
And you fell back in the saddle, left time standing still  
And put all your troubles right on me

To say we've got your problems is an understated truth  
But in your times of clarity I found the light in you  
So when your skin's crawlin' and that light begins to fade  
Just love me darlin', I think I can stay

Love me like you used to do way back when

If I could take your pain away you'd never have to try  
Maybe then, just maybe, we could lead a normal life  
Freedom has new meaning tight to your ball and chain  
Just love me darlin', I think I can stay

Love me like you used to do way back when  
'Fore the rug was pulled beneath your feet  
And you fell back in the saddle, left time standing still  
And put all your troubles right on me

Just love me darlin', I think I can stay  
Just love me darlin', I think I can stay  
Just love me
