

## New Star

Mandolin Orange

We settled in for the winter  
The cast in our lives found a new star  
And all of our remaining hours  
Were bundled up tight and placed in our arms

Someday we'll be older  
Our eyes may cry  
Look what's become of me and my former  
Steal away, steal away, remember  
At least we're all here together

Finding our way as a teacher  
Stumbling along a little unrested  
If only one lesson could reach her  
She'll know our love could never be tested

Someday she'll be older  
Our eyes may cry  
Look what's become of me and my former  
Steal away, steal away, remember  
At least we're all here together

At least we're all here together  
We settled in for the winter  
The cast in our lives found a new star
