Farewell

Mandragora Scream

Lucifer & Him

Him: "Lucifer race whispers in silence Condemned to stand on the gallows of violence"

Lucifer: "The heroes die with a smile upon their face and why'd you call my golden rays Horns"

Bless the night hear my cryin' all the days in your life Lust of mind Heavens dying Son of my dark dawn Where's my life? Here in my arms Where's my blame? Here in my soul Help me to hate you while I'm goin' away from you...

Him: "Lucifer race whispers in silence Condemned to fight and leave the world insane"

Lucifer: "I'll be the one that carries faith in life and lead in the dark of our upcoming lives"

Blasted mind sinful lies Can becloud our life light, Lord of disgrace sacrified and Melodies delight Where's my life? Here in my arms Where's my blame? Here in my soul Help me to hate you while I'm goin' away from you
