

Masterpiece

Mandy Harvey

When I feel like I'm all broken pieces
That I wish I could just throw away
Look for glue I can put in between them
Back in place, back in place

'Cause my heart is way up on the ceiling
And my mind took a boat, sailed away
But I still got my angels and demons
Used up string, can of paint

Well, I'm no artist, but I think I got this
Might be the hardest thing I've ever done
Pick up the pieces, pieces of me and
I'll be a masterpiece when I am done

Might never be done
Might never be
Might never be done
Might never be done

There's no blueprint for me, no instructions
So I went ahead and made them up
But I know that it's worth all the trouble
Paper cuts, paper cuts

Well, I'm no artist, but I think I got this
Might be the hardest thing I've ever done
Pick up the pieces, pieces of me and
I'll be a masterpiece when I am done

Might never be done
Might never be
Might never be done
Might never be done
Might never be
Might never be done

Yeah, I look pretty good from a distance
But I'm a mess if you see me close up
It's an ongoing pièce de résistance
All lit up, light it up

Well, I'm no artist, but I think I got this
Might be the hardest thing I've ever done
Pick up the pieces, pieces of me and
I'll be a masterpiece when I am done

Well, I'm no artist, but I think I got this
Might be the hardest thing I've ever done
Pick up the pieces, pieces of me and
I'll be a masterpiece when I am done

Might never be done
Might never be
Might never be done
Might never be done
Might never be

Might never be done
