

# Sugar Rush

Mandy Harvey

I built a little house just for you  
Gum drops and candy canes with of view  
Marshmallow kids in the yard  
It's our dream but it's not that far

Powdered sugar instead of snow  
Icing sidewalks to places unknown  
The whole worlds changing it's so grand  
Hearts on fire holding your hand

Ohh, this is really best thing  
Oh, give me a sugar rush dancing

Come closer, all the way  
Don't let this time escape  
This season is so bright  
Cause you're here with me tonight

I'm addicted to your face  
Homemade cocoa's like your embrace  
Peppermint treats sweet like your smile  
Getting giddy just like a child

Ohh, this is really best thing  
Oh, give me a sugar rush dancing

Come closer, all the way  
Don't let this time escape  
This season is so bright  
Cause you're here with me tonight
