

Waiting

Mandy Harvey

Let me wait for you
Will you, please?

When I wake up
I'll be reaching for you
My hand will hold you, dear
I can be a guiding light just for you
If you choose to have me near

Let me wait for you
Let me wait for you
Let me wait for you
Will you, please?

All this time you need
Is good for you (for you)
And I hope you find your way
You can take as long as you need (as you need)
If you just ask me to stay

Let me wait for you
Let me wait for you
Let me wait for you
Will you, please?

I give myself away
I do it every time
But something was telling me
That this time it's alright

Let me wait for you
Let me wait for you
Let me wait for you
Will you, please?

Let me wait for you
(Let me wait)
Let me wait for you
(Let me wait)
Let me wait for you
Will you, please?
