

Windowpane

Mandy Harvey

Oh, I need to know if you will be home
Oh, I need to know
Before my heart fills with snow

I've been here at window pane
Looking in all directions
And there's lighting and sound and music around and people laughing
While I'm stuck here waiting

That's why I need to know if you will be home
Oh, I need to know
Before my heart fills with snow

It's another year of promises
And it's getting so hard to believe
But I've lit up the tree
Hung up stockings, made treats
And I'll keep praying that soon you'll be with me

Oh, I will put on my smile
And I will dance for a while
I will let myself be happy
If I could just know right away
If you will be gone or you'll stay
Just don't leave me waiting

Oh, I've been here at window pane
Looking in all directions
And there's lighting and sound and music around and people laughing
While I'm stuck here waiting

And there's lighting and sound and music around and people laughing
While I'm stuck here waiting
