

Brand New Nowhere

Mandy Moore

Walking away from the ghost arcade
Through the fog on pier
All the faces I know by name
Have gone missing
Empty cars, windows broken
Long shadows
Walking away from the mess we've made

When we run out of road
Let's find a brand new nowhere
And wherever we go
Is getting us close to somewhere
I can't do it alone
Let's find a brand new nowhere

I was dreaming of paradise
You were in it with me
I bought it all at the asking price
Fully loaded
Big screens, waves of blue light
Imbedded in code
I was drowning in paradise

When we run out of road
Let's find a brand new nowhere
And wherever we go
Is getting us close to somewhere
I can't do it alone
Let's find a brand new nowhere
Brand new nowhere

I've been leaning on memories
A little more than I should
I need to take the future to bed with me
And roll with it

Let's find a brand new nowhere
Is getting us close to somewhere
I can't do it alone
Let's find a brand new nowhere
Let's find a brand new nowhere
