

# How Could This Be Christmas?

Mandy Moore

Moonlight on the snow  
Outside my frozen window  
Lights are twinkling from my  
Neighbor's roof  
I hung out mistletoe  
Left cookies by the chimney  
How could this be Christmas  
Without you?

Somehow  
I'm putting on a record  
For you  
I'm wrapping up a present  
For you are  
At the top of my wishlist  
How could this be Christmas  
Without you?

Somehow  
I'm putting on a record  
For you  
I'm wrapping up a present  
For you are  
At the top of my wishlist  
How could this be Christmas  
Without you?

There's headlights in the street  
But nobody is stopping  
Just another traveler  
Passing through  
Moonlight on the snow  
Outside a frozen window  
Guess this year my dreams aren't  
Coming true

Oh, how could this be Christmas  
Without you?
