

Tor Hjalpe

Månegarm

Now listen up
The world is at its end
I had a vision
Cold and grey and damned
Hey
Do you still believe?
The stars in your eyes
Has somehow taken its leave

And I still don't know
The reason why I'm still alive
And I still can't find
The motivation to go on and...

As we die
Like worms
Crawling blind
In this world of filth (Man)

The mountains crumble
The sky is cracked open
A Nordic battle rage
The hammer to the cross
Tor Hjalpe!
Cast the serpent out
Our lands are burning
As the flame purifies the north
