

Fall In Love

Manian

So many words unspoken
Too many nights I've cried
Too many times we've said good bye
Why did I fight this feeling?
Why did we go this far?
Why don't you tell me who you are?

I live a lie with open eyes
Why do I fall in love again?
Why do I need you now?
Can you make me understand?
Another day, another try
I'm ready to fall in love again
Fall in love, fall in love again

Still want your arms around me
To keep me safe and warm
Another way to carry on
Can anybody tell me?
If I'm right or wrong
Maybe I'm better off alone

I live a lie with open eyes
Why do I fall in love again?
Why do I need you now?
Can you make me understand?
Another day, another try
I'm ready to fall in love again
Fall in love, fall in love again

I live a lie with open eyes
Why do I fall in love again?
Why do I need you now?
Can you make me understand?
