

I'm in love with the DJ

Manian

I'm in love with the DJ!
I see you standing on the floor
Body screaming, "give me more!"
And a bottle of Patron, take a shot, take a shot!
Party rocking all the world, she can be my only girl
Can't just watching the horizon
Cause I know you like it loud!
Hold, hold, tight, tight, yes, here we go!
Order up another bottle, party like a supermodel
..will keep us dancing while we're over here romancing
Come and get it while it's hot,
Like a horizon we'll be glancing!

Chorus:

I'mma dance forever
And disco lights will shine my way!
Cause tonight we're together
We're going up, up, up
I'm in love with the DJ!
I'mma dance forever
And disco lights will shine my way!
Cause tonight we're together
We're going up, up, up
I'm in love with the DJ!
Up, up, up, oh, oh
I'm in love with the DJ!
Up, up, up, oh, oh
Shine my, shine my way!

Let's get right back to the topic
Way before you tell me stop it
Take you shopping every day
Can't do that, can't do that!
Even thought I only met you,
Pretty sure I won't forget you
So let's get it on the floor
Because the club about to shake!
Grab her, hold, tight, guess, here we go
