Manic Drive

This is your last chance
to get on up now

Come on closer to me
your pulse becomes the beat
step and move your body get closer and dance with me
take a chance lets be brave
I'm sure you like the taste
take a shot at some fun and not to waste

Last chance
come on get up on that dance floor
the party started and it's getting more
ain't nobody sitting down at this club
everybody get up now, everybody get up
o-h-o-h-o-h

Come on closer to me
your paulse becomes the beat
to dance about the music
that's a new shoe that you can leave
from the girls to the guys to the back to the front
to let me see you block him
from the stop to the end of the break of dawn
let me see you block him
take a chance lets be brave
I'm sure you like the taste
take a shot at some fun and not to waste

Last chance
come on get up on that dance floor
the party started and it's getting more
ain't nobody sitting down at this club
everybody get up now, everybody get up
o-h-o-h-o-h

It's your chance now
feel it WOW!
Can you feel the vibe running in the sound
o-h-o-h-o-h
a love compelling to do and move when it comes around
see me dancing in this place so fast
from stead fast
rocking from the world cast
working on something that is built to last
this spot right here with your name written on it
don't refuse you got nothin' to lose
time to chose staring, willing
those finder hands up to the sealing
so what you thought was a panic was a o-matic

Last chance
come on get up on that dance floor
the party started and it's getting more
ain't noboday sitting down at this club
everybody get up now, everybody get up
