

# Easier

## Manic Drive

Every single step  
The further I get doesn't seem to get easier  
It doesn't seem to get easier  
I'm running out of breath  
But You wouldn't give me strength if it's meant to get easier  
If it's meant to get easier

So help me I'm asking please  
There's gotta be another remedy  
I'm running out of my options  
I'm running out of my options so  
So show me how to get  
How to get

Stronger  
Stronger  
Don't expect it to get easier  
Not until You make me stronger

No it doesn't get easier  
So show me how to get  
How to get

Stronger  
Stronger  
Don't expect it to get easier  
Not until You make me stronger

Makeshift happiness  
Mistaken being blessed with artificial exteriors  
Fabricated with smoke and mirrors  
We can never reach new heights  
Without obstacles to climb  
No, getting there isn't effortless  
I'm gonna need a hand with this

So help me I'm asking please  
There's gotta be another remedy  
I'm running out of my options  
I'm running out of my options so  
So show me how to get  
How to get

Stronger  
Stronger  
Don't expect it to get easier  
Not until You make me stronger

No it doesn't get easier  
So show me how to get  
How to get  
Stronger  
Stronger  
Don't expect it to get easier  
Not until You make me stronger

I'm gonna break through even if it hurts

Don't want no medication it just makes it worse  
Cause if I'm numb to the freedom  
I'll never come through if I'm comfortable  
No I'll never leave this room

No it doesn't get easier  
No it doesn't get easier

So show me how to get  
How to get  
Stronger  
Stronger  
Don't expect it to get easier  
Not until You make me stronger
