

Electric

Manic Drive

Activate and kill the darkness
Flip the switch and crank the voltage
Pizzaz and tame what's been defeated
Break the circuit to complete it
Cuz with you

I've got a feeling runnin' through me
Pump my soul all the way trough my body
Could this be your electricity
That makes me feel so alive

You make me come to life
Its like a lightning strike
Body and soul collide
Like a shock to my heart Your love is electric
Energy, I feel you move through me
Shout so the world can see
Like a shock to my heart Your love is electric
Like a shock to my heart Your love is electric

Power surging through my body
Super-charging what's been missing
This force that drives me is magnetic
Breaking through this noise and static
Cuz with you

I've got a feeling runnin' through me
Pump my soul all the way trough my body
Could this be your electricity
That makes me feel so alive

You make me come to life
Its like a lightning strike
Body and soul collide
Like a shock to my heart Your love is electric
Energy, I feel you move through me
Shout so the world can see
Like a shock to my heart Your love is electric
Like a shock to my heart Your love is electric

[Trevor McNevan:]
Start me up one more time
Thousand volts out with every line
I can't tell you what I'm on this time
You'll just have to press rewind
[2x]

You make me come to life
Its like a lightning strike
Body and soul collide
[2x]

Like a shock to my heart Your love is electric
Energy, I feel you move through me
Shout so the world can see
Like a shock to my heart Your love is electric
Your love is electric
