

Into the Wild

Manic Drive

Stuck in an ocean, staying in motion are we too comfortable
Have we settled short? Has the city made us fragile?
Cage for safety, glass and concrete protect us from all fear
I know there's shelter here, but I'm running to the frontier

And in this moment, it's all clear
I don't have to go, but I can't stay here
Now that I see it, see it
Guess I'll be leaving, leaving

Into the wild
It's a jungle out there, jungle out there
We don't care about the lions
When we march towards the giants
Into the wild
It's a jungle out there, jungle out there
So we dance and be courageous
Even though these wilds are dangerous

Though we've never been there before
This adventure is an open door
Tell me, whatcha been waiting for?
Why don't we go, why don't we go
Into the wild
It's a jungle out there, jungle out there
We don't care about the lions
When we march towards the giants

Twists and turns, still lessons learned when we find out where to go
So we take these winding roads into the great unknown
It won't be easy, there's hills and valleys, cliffs and waterfalls
But they look so beautiful, so we keep on moving forward

And in this moment, it's all clear
I don't have to go, but I can't stay here
Now that I see it, see it
Guess I'll be leaving, leaving

Into the wild
It's a jungle out there, jungle out there
We don't care about the lions
When we march towards the giants
Into the wild
It's a jungle out there, jungle out there
So we dance and be courageous
Even though these wilds are dangerous

Though we've never been there before
This adventure is an open door
Tell me, whatcha been waiting for?
Why don't we go, why don't we go
Into the wild
It's a jungle out there, jungle out there
We don't care about the lions
When we march towards the giants

Father, just tell me where to go

Take the lead, and I will follow
Even when I leave my comfort zone
Even if I'm far from, even if I'm far from home
Where my heart is
But my heart is battling my conscience
And I have convictions to be honest
Even if believers don't believe it
Some will call me sinner, some will call me saint
They can call me whatever, I ain't doing this for them
So I'm taking my music and I'm taking Your Name
And I'm reaching the lost in this wilderness
Though we've never been here before
This adventure is an open door
Tell me whatcha been waiting for?

Into the wild
It's a jungle out there, jungle out there
We don't care about the lions
When we march towards the giants
Into the wild
It's a jungle out there, jungle out there
So we dance and be courageous
Even though these wilds are dangerous

Though we've never been there before
This adventure is an open door
Tell me, whatcha been waiting for?
Why don't we go, why don't we go
Into the wild

It's a jungle out there, jungle out there
But, we don't care
