

100 With You

MANILA GREY

We ain't the type to fall back into the same
Patterns, baby yeah we keep it wavy
We gotta keep the spark, gotta keep the flame
And to do that gotta move a little crazy
I keep it 100 with you
You keep it 100 with me
This type of love, no you can't find the same
Ain't nobody movin' like my baby

Quite like my baby
Put you in that S-class, brand new Mercedes
AMG, all my ghosts, I swear they haunt me
Therapy I ain't need, I swear you heal me
(Swear you heal me baby)

The energy with you it changed the game
We movin' different baby never movin' basic
With you and me, we just do our own thing
You give me everything I need, not on occasions

Love like that right there is hard to find
You deserve the world because you mine
And with you I always count my blessings twice
Yeah with you I always count my blessings twice

We ain't the type to fall back into the same
Patterns, baby yeah we keep it wavy
We gotta keep the spark, gotta keep the flame
And to do that gotta move a little crazy
I keep it 100 with you
You keep it 100 with me
This type of love, no you can't find the same
Ain't nobody movin' like my baby

Ain't nobody movin' like my baby
Mmm, she hold me down no matter what they say
I made my mistakes, you forgave me
Could've lost a love that I couldn't replace
I stack this money to take you out the city
I know that you be dying to escape
All these hotel fights gettin' crazy
Everybody in the lobby know my name

Easy, hear me out, believe me
Look me in the eye
Got me thinkin', feelin'
The way you teach me love I can't deny
Easy, hear me out, believe me
Look me in the eye
Got me thinkin', feelin'
The way you teach me love I can't deny

We ain't the type to fall back into the same
Patterns, baby yeah we keep it wavy
We gotta keep the spark, gotta keep the flame
And to do that gotta move a little crazy
I keep it 100 with you

You keep it 100 with me
This type of love, no you can't find the same
Ain't nobody movin' like my baby

I keep it 100 with you
You keep it 100 with me
