

Drifting

MANILA GREY

Drifting from our love
Drifting from our love

Where? where did you go?
I just wanna know let me talk to you
Where? where do we go?
Feels like we drifting

Drifting from our love (from our love)
Drifting from our love (from our love)
Drifting from our love (feels like we drifting)
Drifting from our love (feels like we drift...)
Feels like we drifting

Give me love like you used to don't change
Should've gave you more, why I let you runaway
You need us no reservations
Don't mean to keep you waiting
We lost in translation
Can I take back my mistakes? (my mistakes)

This life feel cold
It's been so lonely all these nights I drive alone
I took too much and not enough, shit I don't know

Ran out of luck, ran out of love
(Ran out of luck, ran out of love)
Ran out of luck, ran out of love
(Ran out of luck, ran out of...)

Where? where did you go?
I just wanna know let me talk to you
Where? where do we go?
Feels like we drifting

Drifting from our love (from our love)
Drifting from our love (from our love)
Drifting from our love (feels like we drifting)
Drifting from our love (feels like we drift...)
Feels like we drifting

This life feel cold
It's been so lonely all these nights I drive alone
I took too much and not enough, shit I don't know

Ran out of luck, ran out of love
(Ran out of luck, ran out of love)
Ran out of luck, ran out of love
(Ran out of luck, ran out of...)

Drifting from our love (from our love)
Drifting from our love (from our love)
(This life feel cold)
Drifting from our love (feels like we drifting)
Drifting from our love (feels like we drift)
Feels like we drifting

I saw you in the cut
I think I fell in love
Don't even know your name
Just wanna feel your touch
The Benzo parked out front
Do you wanna get away?
