

Forest Green

MANILA GREY

Forest green reminds me of you
Baby blue everytime I'm without you (without you)
That's the truth I keep it real with you
'Bout to lose service I'm...

Same page like we read the same books
Telepathic way we give the same looks
Therapeutic way the sex so good
Can only treat you like a real man should

I seen you cry, seen you smile
Seen you walk, seen you flyin'
Seen you sad, I seen you shining
You've seen the same that's why you beside me

I'm up in the sky and you get uncertain
I'm out with the guys and you get so nervous
I'll call you back
I don't know if this is working
I'll call you back
I don't know if this is working

Cut, cut from the same diamond
I thought I lost it, you helped me find it
Head down like the boy was blinded
Meant to be how our worlds collided

I just want good times, yeah (good times)
It's crazy out here my baby (baby)
You blowing kisses through the screen
Give me a little tease
Then it's goodnight
Slept in LA woke up NY
I'll be back to you in no time
I'll be back to you in no...

I never came from money but the income
At a place where you and I could spend some
I come from a place where the rain come
So it's only right tonight we make it rain 1's
The energy you bring sensational
I had to make that pussy unavailable
You give me looks, looks irresistible
You asking how you got me all the way across the world straight missin' you
It's only been a week reminiscing you
Oh you couldn't tell I was feelin' you?
Oh you couldn't tell I was into you?

Yeah yeah, uh huh

Forest green reminds me of you
Baby blue everytime I'm without you (without you)
That's the truth I keep it real with you
'Bout to lose service

I'm up in the sky and you get uncertain
I'm out with the guys and you get so nervous

I'll call you back
I don't know if this is working
I'll call you back
I don't know if this is working

I just want good times, yeah (good times)
It's crazy out here my baby (baby)
You blowing kisses through the screen
Give me a little tease
Then it's goodnight (it's goodnight)
Slept in LA woke up NY
I'll be back to you in no time
I'll be back to you in no...
