

Night Code

MANILA GREY

(Zelly who?)
I'm just going super sonic

My wheels burn at night
Then I burn at night
That's the code
That's the code
My wheels burn at night
Then I burn at night
That's the code
That's the code

That's the code, follow it with my soul
Coldest thing since snow
Negative 10 below
Arch angel with the black wings
I just ride everlasting
Got 2 Gemini twins doing bad things
Got them both rings now they link anytime
When the wheels burn at night
When the city grey I love the sight
When the city grey they know the code
When the city grey they know I'm home they know

My wheels burn at night
Then I burn at night
That's the code
That's the code
My wheels burn at night
Then I burn at night
That's the code
That's the code

Pull the trigger on the trap card
New flex Seto Kaiba
My whip burn Nascar
Head rush, heavy trauma
Her nickname 'Drama'
1z with the cut cut bust the katana
Roll through the cut cut decked in designer
8 ball white white, her nose stay runnin'
Neeks well known in casinos
She got left with 6 zeros
No no no I'm no hero
Code 1-1 Bat-Mo at the front door
My wheels burn on Knight
Sippin' on purple Sprite
Then I ghost, that's the code then I ghost

My wheels burn at night
Then I burn at night
That's the code
That's the code
My wheels burn at night
Then I burn at night
That's the code
That's the code

Silver skies, silver road
All 4 wheels, dipped in chrome
Potion 0005, they need a dose
Toss away the burner burner
Power slide wheels stay turnin'

My wheels burn at night
Then I burn at night
That's the code
That's the code
My wheels burn at night
Then I burn at night
That's the code
That's the code
