

Ride 4 U, Die 4 U

MANILA GREY

(Zelly who?)

Fortune 500 she would die for it
She would ride for it
Shen don't hide from me
Drip you down in diamonds
I would ride for you
I would die for you
I'll be I'll be back for you

Nights turned into days
We just show up, we get paid
Then we roll up, then we sage
We No Saints, we No Saints on occasion
Be patient, be patient
Pass around the blunt in rotation

Left behind my baby, been a while since I've seen that thing
Lot has changed when you left the stage
Wish you good
No one can keep you safe like me, can keep you safe like me
Money buy us that chemistry
Money buy us that mmm mmm
Money buy us that good love
Good love 'til the night's up like time's up
'Til the night's up still we stay up, (stay up!) stay up, (stay up!) stay up
(Stay up lil shawty!)
Still we stay up, mmm stay up
(Stay up lil shawty!)
Stay up, stay up, stay...

Fortune 500 she would die for it
She would ride for it
Shen don't hide from me
Drip you down in diamonds
I would ride for you
I would die for you
I'll be I'll be back for you

I'll put that all on you
U know me I got you
Don't even say nothing
I know all things about you
Hunnids
Keep my eyes on you
Pussy in the morning then I'll take u bag shoppin'

Pick what color, pick what matches
I'm still all in black like ashes
Visa Visa do some damage
Still I pay it back, I manage
Spend like Fortune 500

Heels stay sharp look like assassins
That cut money while you dancin'
Throwing money you stay cashin'
Spend like Fortune 500

She could slide on it
She could ride on it
Feel alive on it
Drip you down in diamonds
I would ride for you
I would die for you
I'll be I'll be back for you

Nights turned into days
We just show up, we get paid
Then we roll up, then we sage
We No Saints, we No Saints on occasion
Be patient, be patient
Pass around the blunt in rotation

Fortune 500 she would die for it
She would ride for it
Shen don't hide from me
Drip you down in diamonds
I would ride for you
I would die for you
I'll be I'll be back for you

Fortune 500 she would die for it
She would ride for it
Shen don't hide from me
Drip you down in diamonds
I would ride for you
I would die for you
I'll be I'll be back for you
