

# Timezones

MANILA GREY

Rollin' rollin' rollin' rollin'  
Island boys we the chosen  
Double cupped mixin potion with the sprite (yeah, yeah)  
This shit is for life I'm good for the night (yeah, yeah)  
Zombie zombie, been walkin' with my eyes closed  
Zombie zombie, hit the plug on the iPhone  
Check the time cause I'm lost between the timezones now  
Medusa with the snake eyes when the dice roll now  
Ain't no shade when the lights go down (when they go down)  
Who really riding with me better choose right now  
On that holy water, I drown Island money  
Stay converted, so we can ball out

Pull up in blacked out Benz  
It don't matter what I spend, money dies in the end  
It don't matter what I spend, money dies in the end  
Pull up in blacked out Benz  
It don't matter what I spend, money dies in the end  
Money dies in the end, in the end

I ain't playin' test my patience  
All you faceless, all you faithless  
Youth water ice blue, I never age  
I'm on something new, I'm on the latest  
Now see the palms let that shit sway let the money die  
She gon' rise back to life, money lost I revive  
North moving pawns on the board set your queen aside  
Neeko ghostride like dark knight, yeah he on a vibe  
On the darkside timezones I'm crossing time  
Baby Fleece a different kind  
Don't cross my 1z, no no we not that kind  
No no we not that, we not that kind

Pull up in blacked out Benz  
It don't matter what I spend, money dies in the end  
It don't matter what I spend, money dies in the end  
Pull up in blacked out Benz  
It don't matter what I spend, money dies in the end  
Money dies in the end, in the end

I'm gon light that cash up with my riders  
Throw down 50 racks all this money don't expire  
She comin' thru to play, yeah she down to play with fire  
Watch me pull up in a blacked out benz 'round the corner  
Watch me pull up in a blacked out wagon 'round the corner  
Low eyes under dark skies back to California  
Back on knight street on my high speed when I'm home  
My G's with me so I never ride alone  
We gon' light that cash up with my riders  
Throw down 50 racks all this money it don't expire  
She comin' thru to play, she down to play with fire  
City up in flames, since we got it, it ain't ever been the same

Pull up in blacked out Benz  
It don't matter what I spend, money dies in the end  
It don't matter what I spend, money dies in the end  
Pull up in blacked out Benz

It don't matter what I spend, money dies in the end  
Money dies in the end, in the end

Money come fast, money go  
That's the only thing I know  
Money come fast, money go  
Countin' up, I'm countin' slow  
Money come fast, money go  
Throw it up we'll let it snow  
Money come fast money go  
I ain't ever dying broke  
Money come fast, money go  
That's the only thing I know  
Money come fast, money go  
Countin' up, I'm countin' slow  
Money come fast, money go  
Throw it up we'll let it snow  
Money come fast money go  
I ain't ever dying broke
