

Baby, won't you come and find me?  
I've been runnin' round in circles  
Time passin' by behind me  
Life's moving turbo  
Baby, won't you come and find me?  
I've been runnin' round in circles  
Time passin' by behind me  
Life's moving turbo  
Oh, oh-ooh-woah, oh-oh-oh, oh-ooh-woah

Trust your intuitions, I gave you space, gave what you needed  
Our conversations getting heated  
These celebrations without you, I feel it all, hmm  
I spaced out last weekend, thinking we can't be friends  
(You said "it's too much to be yours")  
Fast life, living, creeping, but these feelings  
(Said "it's too much to ignore")  
You're the right one at the wrong time  
Or was I wrong this whole time? hmm  
Fast life, living, creeping, I wish you could see it  
(You could see it, you could see it)  
Yeah I wish you could see the world with me, this time (This time)  
Yeah I wish you could see the world with me, see the world with me  
(See the world with me)  
This time (this time), this time (this time)

Baby, won't you come and find me?  
I've been runnin' round in circles  
Time passin' by behind me  
Life's moving turbo

You know what we've been through  
My life could've been you  
Why you bother now what everyone says?  
Thought we fight to progress?  
Now all your fragrance stains my marijuana  
Got me too attached to being sober  
Are we fighting for love or for somebody else?  
Thought we promised to be honest, oh  
Chaos in the meantime  
All of this shit, just to be kind  
Slowly drifting in time  
Are you really gonna be just fine?

Baby, won't you come and find me?  
I've been runnin' round in circles  
Time passin' by behind me  
Life's moving turbo  
Baby, won't you come and find me?  
I've been runnin' round in circles  
Time passin' by behind me  
Life's moving turbo  
Oh (can't look back)  
Oh-ooh-woah (can't let go, can't look back)  
Oh-oh-oh (can't look back)  
Oh-ooh-woah
